

**WASHINGTON-** Congressman Spencer Bachus is pleased to announce that Chilton County will be receiving \$150,000 in federal grant money for Gragg-Wade Field. □

This project involves the purchase of land to ensure that FAA regulations are satisfied for the airfield's existing and future runway protection zones.□ The landing approach and transitional areas are also slated to expand with this grant from the FAA. □ The FAA determined that acquisition of controlling interest in these properties was necessary for Gragg- Wade Field to meet current Federal Aviation Administration design standards.

□
